PRESS RELEASE

To: Members of the Public
From: David Barrow
Date: October 4, 2011
Re: September 2011 Building Permits

Building permits continued at a slow pace during the month of September 2011 within the city of Central. A total of 6 new residential permits were issued. The total valuation of these permits was \$912,956.

Within these permits, one was issued in Village Lakes with a building valuation of \$177,268; one in Morgan Springs with an average valuation of \$140,342; two in Burlington Lakes with an average valuation of \$156,008; and two on private parcels of land (one with a valuation of \$78,048 and another with a valuation of \$205,282.) So far this year, a total of 101 new residential building permits have been issued. This is the second month in a row with below average building permits for new residential construction.

On the commercial side, Mike Anderson has submitted his plans for review for his new restaurant to be located on Greenwell Springs Rd between Frenchtown Rd and Sullivan Rd. Plan review should be completed by the end of the month. Also, the McDonald's on Hooper Rd has submitted plans for renovations and remodeling.
